

# COVID-19 STUDIO SAFETY PLAN

Perform symptom and temperature checks prior to bringing your child to the studio. Children with a temperature above 99 degrees or experiencing symptoms must stay home.

PAAM Staff will take each child's temperature at drop-off. Only students and PAAM staff will be allowed inside the studio. Parents will drop-off & pick-up at our outdoor registration point.

Students and staff will sanitize their hands upon entering the studio, as well as before and after meal breaks.

Face masks are required to be worn at all times by anyone over the age of 2.

Students are required to wear sneakers or tennis shoes for outdoor instruction. No slippers, sandals, or open-toed shoes.

Students train in stable groups, and do not mix with other groups. Classes are held in ventilated spaces with appropriate physical distancing monitored by staff.

Staff will be frequently sanitizing high-touch areas and equipment.

If you are feeling unwell in any way, please do not visit the studio.

See other side for additional safety measures.

## Additional safety measures we have implemented

- Signage inside & outside the studio regarding our Covid-19 procedures
- Extra hand sanitizer, tissues, soap and disposable hand towels made available
- Educating staff on Covid-19 policies and procedures
- Staff symptom and temperature checks daily for in-studio programs
- Staggered drop-off & pick-up times
- Monitoring and educating students on hand washing and physical distancing to the greatest extent possible
- Preparedness plan if a child or staff member becomes ill while at the studio

### Check Your Child For COVID-19 Symptoms

- Cough
- Fever
- Chills
- Muscle Pain
- Shortness of breath or difficulty breathing
- Sore throat
- New loss of taste or smell

If your child has been in direct contact with someone who has tested positive for Covid-19, they must stay home until they receive a negative test or have quarantined for 14 days after exposure. Additionally, students who have traveled out of state or on an airplane must quarantine for 10 days or receive a negative test before returning to in-person programs. \*Students who are fully vaccinated are not required to get testing or quarantine unless they are exhibiting symptoms related to Covid-19.

### \*Students are considered Fully Vaccinated:

2 weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine. If they don't meet these requirements, they are NOT fully vaccinated. Keep taking all precautions until fully vaccinated.

### Temporary Closures

If for any reason we are required to close, we are prepared to switch to a virtual format. Curriculum is in place to provide your child with fun and enriching programs online! In the event of a switch to a virtual format, no refunds will be given because we will still provide you with instruction and any materials necessary.
